

Senior RF/Wireless Location Engineer

Job Summary:

The Senior RF/Wireless Location Engineer candidate must be a seasoned engineering professional who will provide technical and team leadership in TechnoCom's Engineering Services area. This person will have in-depth knowledge of both wireless location (positioning) and RF engineering in a cellular environment, with demonstrated experience both as an individual contributor and a team leader. This position will report to the Executive VP heading the TechnoCom Engineering Services organization.

Essential Functions:

- Executes and leads Engineering Services projects
- Provides technical expertise in RF and wireless location systems engineering
- Successfully and positively interfaces with customers
- Generates requirements for each project
- Strongly supports sales efforts and proposal preparation
- Possesses excellent communications skills, both written and verbal
- Performs other duties as assigned by supervisor/manager
- Professional, respectful attitude toward co-workers, clients, vendors and others

Knowledge, Skills and Abilities / Requirements:

- In-depth knowledge of wireless location (positioning) and RF engineering in a cellular environment
- Demonstrated, detailed knowledge of mapping and RF prediction tools
- Strong knowledge of Excel and familiarity with database tools

Education and Experience:

- 10+ years of directly applicable experience
- BS or MS in Electrical Engineering
- Experience in a fast-paced, small company environment is a plus

Physical Demands / Environment:

Typically is seated at a desk or table in an office environment using a desktop or laptop computer, phone and other office tools and equipment; constantly uses head, neck, hands, fingers, arms and shoulders; must have good vision and hearing; often bends elbows or twists head/neck; occasionally walks, bends, twists torso, stoops and reaches; and carries, pushes or pulls items of 15 lbs. or less.

This full-time position is located at TechnoCom's office in Encino, California.

Please submit your resume by e-mail (text, PDF or MS Word format) to PRFE.job@technocom-wireless.com.
