

FOR IMMEDIATE RELEASE

**Happy Birthday to TechnoCom Corporation:
15 Years of Discovery, Innovation, and Success**

TechnoCom Celebrates their 15 Year Anniversary Focusing on
Wireless Location Solutions and Services

ENCINO, CA – May 31, 2010 – TechnoCom Corporation™ (www.technocom-wireless.com) a leading provider of wireless location solutions and services announced today the celebration of its 15th anniversary. The company started in 1995 to provide system engineering and product development services in the areas of wireless data and location technologies. Today the company's vision of providing successful [wireless location solutions and services](#) to wireless operators, service providers, and enterprises has been fulfilled.

"We are proud of our accomplishments and achievements in creating a business that contributes to greater public safety and a better quality of life. I am especially pleased that TechnoCom was able to play a vital role in delivering quality E9-1-1 services to U.S. and Canadian consumers and public safety," said Masoud Motamedi, co-founder and President of TechnoCom. "We have a great team of dedicated people with much experience and expertise contributing to TechnoCom's success."

TechnoCom has enabled their customers to streamline their business functions, cut costs, improve customer service and rapidly deploy additional revenue generating services. During its fifteen year history, TechnoCom has successfully developed and spun off businesses in wireless Mobile Resource Management (MRM) and Dedicated Short Range Communications (DSRC). The MRM device business allowed enterprises to streamline their business functions through fleet management. Their Mobility Solutions business unit, developed technology to allow cars and trucks to utilize high speed, intelligent communication protocols as a means to improve the driving experience, communicating with its surroundings for improved road safety through automated location, traffic, and safety functions. Through the years TechnoCom has established itself as a wireless location leader with their [LocationAssurance Manager® \(LAM\)](#) and [LocationAssurance Device® \(LAD\)](#) enabling wireless operators to test, manage and optimize their E9-1-1 and commercial location based service networks for more than 245 million subscribers.

“It is rewarding to think that something that started out as an idea has endured and developed through the years,” said Mario Proietti co-founder and Chief Technical Officer of TechnoCom. “It is especially exciting that TechnoCom is transforming its deep experience in E9-1-1 location to launch a cross-carrier location enabling service platform that brings that same wireless caller location technology to the enterprise.” TechnoCom has triumphed by building successful business relationships and partnerships, along with proven solutions and professional services that enable their customers to be successful.

TechnoCom has enjoyed yearly growth and has been named to Deloitte’s “Technology Fast 50” program for four consecutive years, a ranking of the 50 fastest-growing technology companies. This can be attributed to the expertise and experience the founders of TechnoCom bring to the company, and creating a team environment for the company to develop and grow. In addition to the success of their location solutions, TechnoCom has developed a full suite of personalized professional services that take advantage of the skills, expertise, and experience of the TechnoCom team. “TechnoCom has developed a full suite of professional services including [wireless location services](#) and RF engineering and deployment services,” Khaled Dessouky Executive Vice President for TechnoCom pointed out. “Our services make a great complement to our solutions, or they can operate independently contributing to our customer’s success.”

About TechnoCom

TechnoCom Corporation is a leading provider of products and services that enable companies to efficiently utilize optimize and manage location solutions. TechnoCom helps implement wireless location networks and location-based services, reduce operating and capital costs, deliver superior levels of service, increase productivity and rapidly deploy new revenue generating services. The company’s location infrastructure products, LX Server® and LocationAssurance Manager® platforms allow efficient implementation of wireless location solutions and empower customers with continuous, automated oversight into location system performance.

Founded in 1995 and privately held, TechnoCom is celebrating its 15th year anniversary of providing proven location-enabled solutions and services. TechnoCom has been selected by Deloitte as one of the 50 fastest-growing technology companies in Los Angeles for four consecutive years.
